

WATER/UTILITY PUMPS

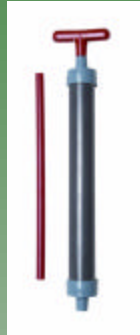

SYRINGE PUMP

Easily remove standing water from hard to drain areas.

Just pull up on handle to bring liquid into pump.
Push down on handle to discharge liquid where you want it! It's that easy!

Barrel Diameter: 1-1/2"
Barrel Length: 12"
Volume: 8 oz./stroke

Stock Number: SYRINGE PUMP

PLUMBING

For use in draining traps, drain pipes, or other curved piping. Also for pumping from tanks or semi-closed places. Three feet of flexible tube fits in the bottom of pump and extends down into trap or drain. Outlet tube for directing flow into pail or bucket.

Stock Number: 12A

Diameter: 1-1/2"
Length: 12"
Volume: 8 oz./stroke

PONTOON PUMPS

For pumping out airplane pontoons (floats)
For use with EDO or Wipaire Floats
Three convenient sizes

Stock Number: F24PX

Stock Number	Diameter	Length	Volume
F15PX	1-3/4"	15"	14 oz/ stroke
F24PX	1-3/4"	24"	22 oz/ stroke
F36PX	1-3/4"	36"	35 oz/ stroke

To add a float jacket, which prevents the pump from sinking if inadvertently dropped into the water, add FJ to the stock number: (ie. F15PX-FJ)

SOLVENT TRANSFER PUMP

BECKSON'S new Solvent Transfer Pump is constructed of high density polyethylene (HDPE) parts making it a suitable transfer pump for most solvents, alcohols or alkalis.

**** Always check chemical charts to verify compatibility BEFORE using the HDPE pump ****

Fits easily into carboys, drums and small tanks.

Available polyethylene adapter secures pump to containers with a 2" buttress thread opening.

MODEL ADPT-B04

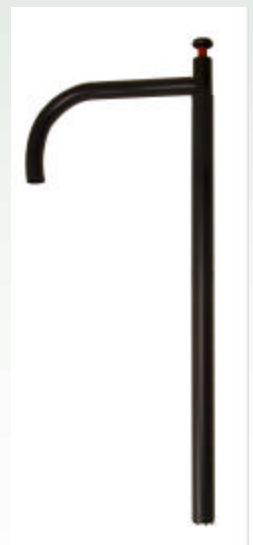

In the event of damage or loss, a replacement spout is also available.

MODEL SPOUT-PE

FEATURES

Self-cleaning ball valve for free flow
Long spout, 14", to reach over any container
Long barrel, 35", to get to the bottom of the drum
Pumps 20 oz per stroke
Friction fit spout swivels up to eliminate drips

MODEL 536PSP
