WATER PUMPS

When repair of irrigation equipment requires water to be removed in order to access a valve or fitting, the absolute, best solution when electrical means are not available or not practical, is a BECKSON® WATER PUMP. These lightweight pumps, constructed of high impact, non-sparking PVC need no priming, are a breeze to operate and are easily stored. Our most popular model is the 136PF-6.

Model
136PF-6

These pumps come in 1-1/2" and 1-3/4" diameter with hose lengths from 24" to 72" long.

1-1/2" Diameter Pumps

Model	Length	Hose	Volume per stroke
224PF	24"	24"	18 oz.
230PF	30"	30"	22 oz.

1-3/4" Diameter Pumps

124PF	24"	24"	22 oz.
124PF-6	24"	72"	22 oz.
136PF	36"	36"	35 oz.
136PF-6	36"	72"	35 oz.
160PF-6	60"	72"	35 oz.
172PF-6	72"	72"	35 oz.

HIGH VOLUME

Pumps a quantity of water easily (over 16 gal. per minute). Flexible tubing in intake end extends to bottom of liquid to be removed. Flexible tubing in outlet end allows for directing of flow. 7 ft. on inlet end, 3 ft. on outlet end.

Stock Number: 915F

Diameter	=	3"
Length	=	24"
Stroke	=	14"
Hose ID	=	2"

SPRINKLER ROTORS

Easily remove water from sprinkler rotors. The 9" pump comes with a 12" rigid, stress crack resistant polyethylene tube that can be cut to length. The 36" vinyl discharge tube directs water away from the head.

Stock Number: RP0936

ACCESSORIES

NEW !!

STONE STRAINER

This alternative to the standard foot valve prevents larger stones and debris from entering the pump, prolonging the effective life of the pump. It is available for all 124PF and 136PF series pumps.

STR-1.75

INTAKE EXTENSION HOSES

Designed to extend the reach of the 124PF and 136PF series pumps. The 1-1/4" diameter reinforced extension hose attaches to the bottom of the pump after removal of the standard foot. It comes with a strainer to reduce clogging.

FPH-1-1/4-4 (4' LENGTH)
FPH-1-1/4-6 (6' LENGTH)

MUD STRAINER

For removal of standing water/puddles from athletic areas such as baseball infields. The strainer easily fits our 124 and 136 series of hand pumps. Comes complete with thumb screw for securing to bottom of pump.

STR-2.00
