

PETROLEUM PUMPS

BUNA –N - 336 & PP SERIES

Beckson's 336PF & PP series hand pumps are constructed of PVC with urethane valves and Buna-N seals. These models incorporate the same design features of our acid transfer pumps, and come with a clear vinyl hose (PP series) or a reinforced vinyl hose (336 series) The PP series pumps are 1-1/4" diameter, 36" long @ 11 oz. per stroke. The 336 series pumps are 1-1/2" diameter, 38" long @ 28 oz. per stroke. See adapter guide for proper adapter. Individually packaged.

STOCK NUMBER	ADAPTER	HOSE LENGTH	
336PF3	NONE	36"	
336PF3-S	2" IPS Bung	36"	
336PF6	NONE	72"	
336PF6-S	2" IPS Bung	72"	
PP3648S	2" IPS Bung	48"	Siphon Pump

336PF3-S

BUNA-N - KEROSENE/DIESEL

SIPHON PUMP

Model: 9-A
 Length" 9"
 Diameter: 1-1/4"
 4 oz. per stroke
 Siphon: 1 gal/min.
 Supplied with clear tubing solvent welded to intake (6') & outlet (3')

Model: 9PC
 Length: 9"
 Diameter" 1-1/4"
 4 oz. per stroke
 Siphon: 1 gal/min.
 Supplied with 8' clear tubing.
 Cut tubing to desired intake and outlet length.

WARNING: NOT FOR HOT OIL

SIPHON PUMP FEATURES

Siphons downhill if liquid level in source is higher than receptacle.
 Transfers kerosene, diesel fuel, water
 Acts as a positive displacement hand lift pump
 Non-metallic, will not spark or mar finishes
 Non Corrosive-Non Rusting
 Siphon action stops when handle is depressed **and** hose removed from source

WARNING ! Plan carefully for liquid to drain from hose after dispensing

WARNING ! Remove pump from container when not in use to prevent unintentional siphon action or unauthorized use.

Beckson's patented (Patent No. 4,301,826), Dual-Action Siphon-Lift Pump easily transfers fuel from one vehicle or container to another.

BUNA-N/POLYURETHANE—AUTOMOTIVE

16PC

Beckson's automotive hand pumps are an effective and easy to use tool for the transfer of oils and fuel. The 16PC model offers a variety of hose diameter and lengths for those hard to reach locations. The 12PGA model is specially adapted to pump crankcase oil from engines equipped with threaded fittings on the top of the dipstick tube. The threaded adapter fits standard male garden hose couplers. Both pumps are constructed of tough, non-sparking PVC and are self-priming.

12PGA
